INDEX

ABSORPTION, RE-, renal tubular, of chloride, 445.
Acclimatization to heat, 86.
Acetylcholine and cholinesterase in chick retina, 40.
—— synthesis, effect of organ extracts on, 417.
Adrenalectomy, loss of K from muscle after, 222.
Afferent nervous factor in experimental shock, 289.
—— —— —— in traumatic shock, 547.
Age, effect of, on hemoconcentrating responses, 193.
Alimentary tract, response of, to cereal starch, 296.
Alkali tolerance of dog heart, 1.
Alkaloids, cinchona, renal hyperemia with, 684.
Anoxemia, respiratory responses to, 392, 406.
Antigonadotrophins in rabbits, 700.
Arterial blood, time concentration curves in, 35.
Artery, bronchial, blood flow in, 648.
Asphyxiation and narcosis, effects of, on peripheral nerve polarization, 174.
Atrium, right, location and shape of, 229.
AUER, J. and H. KRUEGER. Experimental study of antiperistaltic and peristaltic motor and inhibitory phenomena, 350.
Avitaminosis-E, chronic, in castrate and non-castrate rat, 344.
Azotemia, post-burn, and thermal injury, 365.

BARCLAY, J. A., W. T. COOKE, R. A. KENNEY and M. E. NUTT. The effects of water diuresis and exercise on the volume and composition of the urine, 327.
BARLOW, H. B., H. I. KOHN and E. G. WALSH. The effect of dark adaptation and of light upon the electric threshold of the human eye, 376.
——, —— —— ——. Visual sensations aroused by magnetic fields, 372.
Benzene, toxicity of, for rats, methionine and, 358.
BERRYMAN, G. H., C. R. HENDERSON, N. C. WHEELER, R. C. COGSWELL, JR., J. R. SPINELLA, W. E. GRUNDY, H. C. JOHNSON, M. E. WOOD and C. W. DENKO. Effects in young men consuming moderately restricted quantities of B-complex vitamins and protein, and changes associated with supplementation, 618.
Blood, arterial, time concentration curves in, 35.
—— clotting, calcium and prothrombin in, 211.
—— COHb concentration, effect of, on hypoxia tolerance, 139.
—— concentrating responses, effect of age on, 193.
——, effects of hypothermia on, 610.
—— flow, coronary, in dog, 582.
—— ——, hepatic, and glucose output, 302.
—— —— in bronchial artery, 648.
—— —— in inferior cava, changes in, 740.
—— ——, maternal intra-uterine, and change in conceptus during pregnancy, 77.
——, folic acid content of, 319.
——, oxygenated human, CO_2 and chloride in, 568.
——, —permeability of leucocyte, 708.
—— pressure during choline deficiency, 557.
——, —prothrombin a unitary principle or a complex, 563.
——, pyruvate level in, influence of organs on, 323.
—— volume and mortality rate in shock, 164.
—— —— determination by radioactive red cell method, 531.
—— —— reduction in shock syndrome, 98.
Bodyweight and body surface, heat production in relation to, 478.
BOYD, T. E. See BROOKHART and BOYD, 434.
BREWER, G. See CHAMBERS, BREWER, DAVENPORT and GOLDSCHMIDT, 392.
——. See DAVENPORT, BREWER, CHAMBERS and GOLDSCHMIDT, 406.
Bronchial artery, blood flow in, 648.
BROOKHART, J. M. and T. E. BOYD. Local differences in intrathoracic pressure and their relation to cardiac filling pressure in the dog, 434.
BRUNER, H. D. and C. F. SCHMIDT. Blood flow in the bronchial artery of the anesthetized dog, 648.

CALCIUM and prothrombin in blood clotting, 211.
Caloric intake, restricted, and longevity, 614.
Carbohydrate, diet high in, thiamine deficiency and, 51.
Carbon dioxide and chloride in oxygenated human blood, 568.
Cardiac ejection, calculation of time course of, from pressure pulse, 25.
—— output, effect of subcutaneous histamine injection on, 134.
—— —— measurement, 35.
—— stroke output in intrapulmonary pressure, 434.
Cardiac. *See* Heart.
CASS, R. E. Effects of high oxygen tensions upon the carbon dioxide production of skeletal muscle and other tissues of the frog, 490.
Castration, effect of, on chronic-avitaminosis E, 344.
Cava flow, inferior, changes in, after hemorrhage, 745.
—— ——, ——, —— ——, of intravascular origin, 740.
Cerebrospinal fluid pressure, effect of explosive decompression on, 253.
CHAIKOFF, I. L. See MONTGOMERY, ENTENMAN and CHAIKOFF, 239.
CHAMBERS, A. H., G. BREWER, H. W. DAVENPORT and S. GOLDSCHMIDT. The respiratory responses to anoxemia of the normal unanesthetized dog and their causes, 392.
——. See DAVENPORT, BREWER, CHAMBERS and GOLDSCHMIDT, 406.
Chloride, CO_2 and, in oxygenated human blood, 568.
——, renal tubular reabsorption of, 445.
Choline deficiency, blood pressure during, 557.
Cholinesterase, acetylcholine and, in chick retina, 40.
——, serum, liver synthesis of, 675.
CHRISTENSEN, W. R. Long term acclimatization to heat, 86.
Cinchona alkaloids, renal hyperemia with, 684.
Circulation, coronary, in dog, 582.
Circulatory changes during pressure breathing, 434.
CO_2 production of skeletal muscle, effects of high O_2 tensions on, 490.
Coagulation of blood, calcium and prothrombin in, 211.
COGSWELL, R. C., JR. See BERRYMAN, HENDERSON, WHEELER, COGSWELL, SPINELLA, GRUNDY, JOHNSON, WOOD and DENKO, 618.
COHb concentration, blood, effect of, on hypoxia tolerance, 139.
CONSOLAZIO, W. V. See PACE, LOZNER, CONSOLAZIO, PITTS and PECORA, 152.
COOKE, W. T. See BARCLAY, COOKE, KENNEY and NUTT, 327.
Coronary circulation in dog, 582.
—— flow in hemorrhagic hypotension and shock, 726.
CRANDALL, L. A., JR. and A. LIPSCOMB. A direct measurement of hepatic glucose production in experimental diabetes mellitus, 312.
——. See LIPSCOMB and CRANDALL, 302.
Creatinine, inulin and hippurate clearance in rat, 387.

DANOWSKI, T. S. See PETERS, TULIN, DANOWSKI and HALD, 568.
DAVENPORT, H. W., G. BREWER, A. H. CHAMBERS and S. GOLDSCHMIDT. The respiratory responses to anoxemia of unanesthetized dogs with chronically denervated aortic and carotid chemoreceptors and their causes, 406.
——. See CHAMBERS, BREWER, DAVENPORT and GOLDSCHMIDT, 392.
DEBOER, B. See EDERSTROM and DEBOER, 193.
Decompression, explosive, effect of, on cerebrospinal fluid pressure, 253.
DENKO, C. W. See BERRYMAN, HENDERSON, WHEELER, COGSWELL, SPINELLA, GRUNDY, JOHNSON, WOOD and DENKO, 618.
DEUEL, H. J., JR. See ERSHOFF and DEUEL, 45.
DEYRUP, I. J. and W. S. ROOT. The effect of subcutaneous histamine injection on the cardiac output of the unanesthetized dog, 134.
Diabetes in parabiotic rats, 185.
—— mellitus, hepatic glucose production in, 312.
Diet high in carbohydrate, thiamine deficiency and, 51.
Diets, restricted and supplemented, effects of, 618.

Diuresis, anti-, mechanisms of, 259.
——, urine output in, 327.
Drugs, action of, on serosa or mucosa of intestine, 715.
d-tubocurarine, effects of, on oxidations in tissues, 507.

ECKENHOFF, J. E., J. H. HAFKANSCHIEL and C. M. LANDMESSER. The coronary circulation in the dog, 582.
ECKSTEIN, R. W., G. R. GRAHAM, I. M. LIEBOW and C. J. WIGGERS. Comparison of changes in inferior cava flow after hemorrhage and circulatory failure following transfusion, 745.
——, C. J. WIGGERS and G. R. GRAHAM. Phasic changes in inferior cava flow of intravascular origin, 740.
EDELMANN, A. See WHITEHORN, LEIN, EDELMAN and HITCHCOCK, 253.
EDERSTROM, H. E. and B. DEBOER. The influence of age on the hemoconcentrating responses of the dog, 193.
Electric threshold of eye, effect of dark adaptation and of light on, 376.
Electrolytes, renal regulation and, 54.
Electrotonic nervous integration, 515.
ELVEHJEM, C. A. See RIESEN, HERBST, WALLIKER and ELVEHJEM, 614.
——. See TEPLY, KREHL and ELVEHJEM, 91.
ENTENMAN, C. See MONTGOMERY, ENTENMAN and CHAIKOFF, 239.
Enterogastrone, failure of, to prevent rumenal ulcers, 382.
Epinephrine in tissues, effect of sympathectomy on, 470.
ERSHOFF, B. H. and H. J. DEUEL, JR. A comparison of the nutritive value of fats when fed alone or when fed with sucrose or lactose, 45.
ESSEX, H. E. See GRAÑA, MANN and ESSEX, 243.
EVERETT, J. W. See SAWYER and EVERETT, 675.
Excitability, survival of, after somatic death, 299.
Exercise, effects of, on urinary secretion, 327.
Extracellular fluid in traumatic shock, 201.
Eye—ability to perceive peripheral motion, 124.
——, electric threshold of, effect of dark adaptation and of light on, 376.
——, —visual sensations aroused by magnetic fields, 372.
Eye. *See* Retina.

FATS, nutritive value of, with sucrose or lactose, 45.
Fatty-liver factor, anti-, pancreatic juice source of, 239.
FEATHERSTONE, R. M. and E. G. GROSS. Some effects of d-tubocurarine on oxidations in mammalian tissues, 507.
FELDMAN, H. A. See OVERMAN and FELDMAN, 455.
FENTON, P. F. and H. B. PIERCE. Response of the gastrointestinal tract to ingested cereal starch, 296.
FERTIG, J. W. See WANG, OVERMAN, FERTIG, ROOT and GREGERSEN, 164.
Fluid volumes in monkey, seasonal variation in, 455.
Fluorescein circulation time in traumatic shock, 69.
Folic acid content of blood, 319.
—— ——, niacin and, intestinal synthesis of, 91.
FOREMAN, R. C. See OPDYKE and FOREMAN, 726.
FREEMAN, D. See LI and FREEMAN, 358.
